ORDINANCES TO BE INTRODUCED:

- * ITEM-53: Joint Use Agreement with the San Diego Unified School District for the Construction, Operation, Maintenance, and Lease of Turfed Fields at Vista Grande Elementary School.

(Tierrasanta Community Area. District 7.)

CITY MANAGER'S RECOMMENDATION:

Introduce the following ordinance:

(O-2005-128)

Introduction of an Ordinance authorizing the City Manager to execute an agreement with the San Diego Unified School District (SDUSD), for the construction, operation, maintenance and lease of joint use facilities at Vista Grande Elementary School, under the terms and conditions set forth in that agreement.

CITY MANAGER SUPPORTING INFORMATION:

Vista Grande Elementary School is located at 5606 Antigua Boulevard in the Tierrasanta Community. The community has requested development of the existing 4.2-acre field into 2.56 acres turfed multi-purpose field, .18 acre skinned infield, .16 acre stabilized decomposed granite running track and 1.2 acres decomposed granite field. This project will help to satisfy the community's and school district's recreational and athletic program needs. The General Development Plan has been approved through the Park and Recreation Department approval process.

The City and SDUSD have been cooperating in the use of numerous recreational facilities in accordance with the City-SDUSD Recreation Agreement of September 1948, and the Memorandum of Understanding Between the City and SDUSD for the Development and Maintenance of Joint Use Facilities (MOU) adopted by the San Diego City Council on October 7, 2002 (Resolution No. 297149) and by the District's Board of Education on October 8, 2002.

The proposed turf fields at Vista Grande Elementary School will be developed and maintained through this twenty-five (25) year no fee lease and joint use agreement with the San Diego Unified School District (SDUSD). The terms of the agreement allow for the development, operation, and maintenance of irrigated and turfed multi-use playing fields and walking/running track.

ADOPTION AGENDA, CONSENT ITEMS (Continued)

ORDINANCES TO BE INTRODUCED: (Continued)

* ITEM-53: (Continued)

FISCAL IMPACT:

There is no fiscal impact with this joint use action. However, the total project capital cost is estimated at \$1,200,000. Funding is available in CIP-29-656.0 Vista Grande Elementary School-Joint Use Improvements, Tierrasanta Facilities Benefit Assessment Fund No. 79005.

The Vista Grande project is a new facility that will require between \$6,500 and \$9,500 an acre in annual operating costs. New operation and maintenance funding was not proposed in the FY'06 budget. Therefore, the annual maintenance costs are proposed to come from reallocating existing Park And Recreation Department Community Parks II Operating Budget. These demands will require staff from surrounding non-MAD park sites to do maintenance at the new joint use area.

On January 26, 2001, the City received title to Hickman Youth Fields as part of a land transfer between the United States Navy and the City, see approved City Council Resolution No. R-267203, December 8, 1986. The Hickman Youth Athletic Association, Inc., a non-profit volunteer organization since 1969, has developed and managed Hickman Youth Fields for youth sports activities. In addition, the Hickman Youth Athletic Association has been financially responsible for the maintenance of the area, except that the water for the park has been paid for by the City since about 1982 pursuant to Council Policy 700-03, Use Of City-Owned Land by Youth Sports Organizations. The proposed License Agreement allows the Hickman Youth Athletic Association to continue to manage the property to provide athletic facilities and opportunities for the City's youth and to construct, with Park and Recreation Department approval, additional capital improvements at the site. The Hickman Youth Athletic Association has been working with the City on its current plans to build an activity center, a field house and additional parking, as well as to bring the existing facilities into compliance with all local, state and federal laws and regulations.

* ITEM-60: (Continued)

CITY MANAGER SUPPORTING INFORMATION:

On December 5, 2000, the City Council approved the original agreement with Lee & Ro, Inc. to provide engineering services for the Grit Processing Improvement Project (GIP) at the Point Loma Wastewater Treatment Plant. Myong H. Ro is the sole shareholder of Lee & Ro, Inc, a California corporation. In January of 2001, a no cost Amendment No. 1 was executed to correct the fee distribution for the scope of work. On December 9, 2002, Resolution R-297457 authorized Amendment No. 2 in the amount of \$800,000 for additional engineering design services.

Phase 2 of Amendment No. 2 required an encumbrance of \$300,000 prior to the end of FY 2005. This money is not needed at this time due to the funding related delay of the GIP project. Amendment No. 3 is requested to reallocate the encumbrance of the phase 2 funding until FY 2007 when it is anticipated that this money will be needed.

FISCAL IMPACT:

This Amendment will re-phase \$300,000 authorized in Amendment No. 2 from FY 2005 to FY 2007. Funding is available from Fund 41508, CIP-45-943.0, and Point Loma - Grit Processing Improvements in FY 2007 for \$300,000 contingent upon Council approval of the FY 2007 Capital Improvement Program and Appropriation Ordinance Budgets.

* ITEM-100: (Continued)

CITY MANAGER SUPPORTING INFORMATION:

In March 2002, California voters approved Proposition 40, the \$2.6 billion 2002 State Resources Bond "Safe Neighborhood Parks, Clean Water, Clean Air, and Coastal Protection Act of 2002 (bond)". On December 8, 2003, the Mayor and City Council approved Resolution R-298699, which included a distribution of the \$11,063,430 Per Capita/RZH Per Capita funds to each council district, with a portion of the funding set aside for projects with citywide and regional impact. On February 20, 2004, the City entered into an umbrella contract with the State of California for the 2002 Resources Bond Act Per Capita/RZH Per Capita Grant Program.

This action authorizes the City Manager to apply for \$65,000, a portion of the 2002 Resources Bond (Per Capita or RZH Per Capita) funding allocated to Council District 8. The funds will be used for installation of sports field lighting at an existing multi-use turf sports field at Montgomery Waller Community Park.

FISCAL IMPACT:

Total estimated cost is \$300,000 to fund design and construction of the sports field lighting. Currently, funds in the amount of \$235,000 have been appropriated to CIP-29-866.0, Montgomery Waller Community Park Sports Field Lighting by previous Council action. * ITEM-101: Additional Funding for Safe Routes to School - Gompers and Horton Schools.

(Encanto Neighborhoods Community Area. District 4.)

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolution:

(R-2005-1200)

Authorizing the City Auditor and Comptroller to transfer \$30,000 from CIP-68-017.0, School Traffic Safety, to CIP-52-724.0, Safe Routes to School – Gompers and Horton, within Fund 30300, TransNet;

CITY MANAGER SUPPORTING INFORMATION:

Gompers Secondary School is located at the northeast corner of 47th Street and Hilltop Drive, in the Encanto neighborhood. Horton Elementary School is located in the same neighborhood along Guymon Street between Euclid Avenue and 48th Street. Both schools are situated in a high density residential area congested with traffic, and many students must cross busy collector streets while walking to school. Students are also dropped off at the sidewalks along Guymon Street and Lise Avenue, and continue to school by foot. This project provides for improvements in pedestrian safety, traffic calming, and increased crossing opportunities for students and residents within this busy area.

ADOPTION AGENDA, CONSENT ITEMS (Continued)

RESOLUTIONS: (Continued)

* ITEM-101: (Continued)

CITY MANAGER SUPPORTING INFORMATION: (Continued)

Eighty-percent of the project is funded by a grant from the State of California's Safe Routes to School program. The remaining twenty-percent is funded by TransNet and SANDAG. The scope of the project includes the installation of sidewalk, curb and gutter, curb ramps, stamped and colored crosswalks, and pedestrian countdown timers. In addition, the project provides for the installation of a new crosswalk at Euclid Avenue and Guymon Street. All improvements are located within one quarter mile of either school.

During construction, it was determined that additional work could be done to further enhance the traffic safety in the schools' surrounding areas, and within the vicinity of the project. Improvements will include increased number of pedestrian countdown timers, curb ramps, and enlarged cross-walk areas. This increased funding will also pay for adjustments to contract quantities due to increases necessitated during construction. These additions will further amplify the means for students and residents to safely travel in the area, thus encompassing the original intent of the Safe Routes to School project. The work is estimated at \$30,000. Funding is available in CIP-68-017.0, School Traffic Safety.

The project is currently in construction and is ninety-percent complete, with an estimated finish date in May 2005.

FISCAL IMPACT:

The total cost of the project is estimated at \$577,800, of which \$547,800 is available in CIP-52-724.0- Safe Route to School - Gompers and Horton. The additional funding of \$30,000 is available in Fund 30300, TransNet, CIP-68-017.0, School Traffic Safety.

- * ITEM-103: Additional Funds Request for Otay 2nd Pipeline Improvements – Alta View Replacement.

(Paradise Valley Community Area. District 4.)

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolution:

(R-2005-1117)

Authorizing the City Manager to expend an additional \$102,000 from Water Fund 41500, CIP-73-286.0, Otay 2nd Pipeline Improvements, and \$76,000 from Water Fund 41500, CIP-73-331.0, Annual Allocation – Pooled Contingency, for in-house, City Forces, and contract change order costs for Sub CIP-73-286.9, Otay 2nd Improvements, Alta View Replacement;

Authorizing the City Auditor and Comptroller, upon advice from the administering department, to transfer excess funds, if any, to the appropriate reserves.

CITY MANAGER SUPPORTING INFORMATION:

The Otay 2nd Pipeline was originally constructed to convey water 19 miles from the Otay Water Treatment Plant to University Heights Reservoir in North Park. Built from 1928 to 1930, the pipeline continues to serve as a lifeline, moving up to 20 million gallons per day north and south between the Alvarado and Otay service areas. The primary objective of the Otay 2nd Pipeline Improvements Project is to maintain a reliable source of potable water through maintenance, repair, or replacement of the existing pipeline. The Alta View Replacement Phase is one of the eight phases of the Otay 2nd Pipeline Improvements Project. The City of San Diego as Lead Agency under CEQA prepared and completed an EIR, Project No. 5033, dated May 7, 2004, and a Mitigation, Monitoring, and Reporting Program covering this activity. This project is part of a Compliance Order mandated by the Department of Health Services, State of California, and will install approximately 1,305 feet of new 48-inch steel pipe to replace existing 36" pipe, and 1,015 feet of new 12-inch PVC pipe to eliminate the need for an existing pump station. The construction for this project was awarded to the lowest bidder, T. C. Construction of Santee, California, and Notice to Proceed for construction was issued in November 2004.

* ITEM-103: (Continued)

CITY MANAGER SUPPORTING INFORMATION: (Continued)

Field data submitted by the Contractor prior to 48" pipe fabrication revealed unforeseen conflicts with the proposed alignment of the new 48" pipeline requiring substantial revision to the original design. Based on the submitted information and further field investigations, the drawings were revised and additional direction was provided to the Contractor. Change Order No. 1 directed the Contractor to increase the depth of the new 48" pipeline along Alta View Drive to avoid conflicts, resulting in increases to both material and labor costs. Change Order No. 2 revised the connections to the existing 36" pipeline in Alta View Drive and Potomac Street to avoid conflict with existing utilities that were revealed. It also directs the Contractor to remove a large concrete appurtenance in Alta View Drive that was discovered, and to eliminate a manhole and related appurtenances from the original design. The combined effect of the two change orders is to increase construction duration by approximately two months.

The Water Department is seeking approval for additional funds to restore the project contingency fund (\$76,741 of the original \$80,000 contingency has been expended), to pay engineering costs to revise the original design drawings, and to cover increases in City project management, engineering, construction management, and City Forces costs due to the increased project duration.

FISCAL IMPACT:

Total estimated cost of this project is \$2,017,000. Per previous authorization the amount of \$1,759,000 in FY 2005, from the Water Fund 41500, CIP-73-286.9, Otay 2nd Pipeline Improvements - Alta View Replacement, and \$80,000 from the Water Fund 1500, CIP-73-331.0, Annual Allocation Pooled Contingency. The current request is for the amount of \$102,000 from the Water Funds 1500, CIP-73-286.0 Otay II Improvements and \$76,000 from the Water Fund 41500, CIP-73-331.0, Annual Allocation Pooled Contingency.

Approving the plans and specifications for the San Diego River Wetland Creation Project-Phase B (Project) for the Metropolitan Wastewater Department, on Work Order No. 754075;

Authorizing the City Manager, after advertising for bids in accordance with law, to award a contract for the Project to the lowest responsible and reliable bidder in an amount not to exceed \$528,000, provided that the City Auditor and Comptroller first furnishes one or more certificates certifying that the funds necessary for expenditure are, or will be, on deposit with the City Treasurer;

Subitem-B: (Continued)

Stating for the record that the information contained in EIR Project No. 6020, including any comments received during the public review process, has been reviewed and considered by this Council and it is determined that this subsequent discretionary approval of San Diego River Wetland Creation Project - Phase B does not involve substantial changes or new information of substantial importance which would warrant any additional environmental review.

NATURAL RESOURCES AND CULTURE COMMITTEE'S RECOMMENDATION:

On 11/17/2004, NR&C voted 3 to 0 to approve the City Manager's recommendation. (Councilmembers Frye, Madaffer, and Inzunza voted yea. Councilmember Zucchet not present. District 4-vacant.)

SUPPORTING INFORMATION:

The Metropolitan Wastewater Department (MWWD) regularly implements construction, repair, or maintenance activities in accordance with Council Policy 400-13, Planning for Management of Sewer Facilities Located in Canyons and Other Environmentally Sensitive Lands. This often requires compensatory upland and wetland mitigation for impacts to jurisdictional wetlands and timely restoration of impacts within canyons and other environmentally sensitive areas in accordance with the Canyon Sewer Cleaning and Long-Term Sewer Maintenance Programmatic Environmental Impact Report (PEIR) and Master Permit approved July 15, 2004. Timely mitigation of impacts associated with these activities is also required under the California Environmental Quality Act (CEQA) and by regulatory agencies. Accordingly, this project is proposed to meet these requirements.

The San Diego River Wetland Creation Project involves the creation of 3.4-acres of native riparian habitat located along the southern bank of the San Diego River, west of Interstate 15, and north of Camino Del Rio North to mitigate for past and future impacts within the San Diego River Watershed resulting from the Canyon Sewer Cleaning and Long-Term Sewer Maintenance Program. The conceptual design for the project has been presented to the Mission Valley Unified Planning Committee, and the San Diego River Conservancy, and has been reviewed and approved by the Development Services Department, the Planning Department Multiple Species Conservation Program, the Park and Recreation Department, and the resource agencies.

* ITEM-104: (Continued)

SUPPORTING INFORMATION: (Continued)

The project will be implemented in two phases. Phase A, to be implemented under a separate contract, consists of site preparation, installation of erosion control measures, grading, and soil export and disposal. Phase B, the subject of this contract, would include finish grading, installation of an irrigation system, revegetation, and implementation of a long-term maintenance and monitoring period. A construction contract to implement the project will be advertised in accordance with the requirements of the Municipal Code and a contract would be awarded to the lowest responsible bidder.

FISCAL IMPACT:

Funds in the amount of \$528,000 were encumbered in FY 2004 in D.E. 2410066 for wetland mitigation. The remaining D.E. balance will be used in future actions.
